the NANDI BEAR TENANTS

BLAISE KOLODYCHUK PRESENTS:

NANDI BEAR TENANTS - MEGA MADNESS!

MEANWHILE IN THE NANDI BEAR MERCANTILE...

Okay. I have inventoried the entire stock, cleaned out the ice cream machine, painted the outside walls, changed all the records in the juke box, fed the hamster, and alphabetized your hat collection.

Excellent, you are useful after all! I have one more task for you before you can have that burrito.

What's that?

That barrel in the back where we collect the used oil from the deep fryer. I want you to scrub it clean. I need it done in 30 minutes.

Are you serious?

Yes.

I bet you I can do it in 15 minutes.

Hmmm.. I'm always up for a little game of chance.. Name your terms.

Sweet.

GORGON
OPEN
MEANWHILE IN THE FLYING BOOKSHOP

Klor this is so boring!! We should find a way to get back to Earth!
Hang on let me check the control panel. It might tell us where we are headed.

Do you know how to fly this thing?
THE RANDI BEAR TENANTS

I doubt it. It says here we are headed for THE ANGRY BLACK HOLE!

Okay, wait.. That sounds bad.

It IS bad! It's huge and deadly and no one should go anywhere near it!

Why, might I ask, would she set the controls to kill all of us? That is a terrible idea!

I have no idea.

Maybe we should ask her.

Yeah, good plan.

THE NANDI BEAR TENANTS

Okay lady, spill it. Why did you set us on a death course when it would kill you also?!?

Hahahahahahahaha!! You fools! I planned to defeat you well before we reached the Angry Black Hole, and I would slip safely through the underworld portal to freedom.. While you plunged to your death in the vacuum of the mighty death trap!

Yeah, It's right behind that red curtain.

Wait. Underworld portal?

Where does it lead to?

Well when we were on Earth it lead to the underworld, but honestly I'm not exactly sure where it would lead to when you enter it out in space...

Alright. Cool. We're out of here.

Raca shoots a string of goo at Oliver and starts dragging him towards the red curtain.

Hey guys! Wait! You can't leave me here! I'll be sucked in to the black hole!

'Sucks' to be you.

They all go through the portal leaving Medusa tied up in the store.

Seriously? What kind of terrible super heroes are these guys? I gotta a mind to..

Just then a string of Raca's goo shoots out of the portal at Medusa and flings her through the portal. That Raca has a heart of gold....

PART 7 - MEGA MADNESS

Deep in the underground caverns our heroes float about in Zebedah's anti gravity tower in hopes of retrieving the Mega Gem!

You horrible lady! We aren't trying to stop you, or defeat you, or bring you to justice, or anything!! We just wanted to borrow your Mega Gem for a bit so we can save our friend!

Yeah, and honestly Zebedah, you are just being selfish.

Wait, did you say she's a shell fish? Because I'm allergic.

Selfish! SEL-FISH! You fuzzy idiot!

Oh good.. I was worried for a moment.

You are the strangest foes I have ever come across.

Hey! We just met!

Suddenly she wraps her stretchy arms around Captain Trash.

CREEEEAAKK

What are you going to do? Cuddle him to death?

Maybe. If you guys don't give up now and leave me alone!

Meanwhile while Zebedah is distracted Naiad floats over to the Mega Gem...

She slips it in her pocket...

And gives Dorriss the signal...

Okay Zebedah, you win, we're out of here.. Let our friend go.

Really? You will really leave?

Yeah, you are far too powerful for us.

GRAVITY CONTROL

Dorriss shoots a force beam at the gravity button and turns the gravity back on. Everyone falls down, except Dorriss who majestically floats to the ground.

Come on guys, we're no match for Zebedah. Lets get out of here.

EXIT

Huh, I guess I really am the most powerful woman in all of the underground kingdom. HA! Watch them flee like the chickens they are!!

MEANWHILE, ON A TINY ASTEROID IN SPACE

This isn't helping our situation much.. What are we supposed to do now?

Good news is we aren't about to be sucked into the angry black hole.

Actually the good news is that you saved my life, and now I'm honour bound to be your servant for the rest of time.

Really?

No not really! Hahahaha! you gullible fool! I was just trying to escape!

Can you goo up her mouth, please.

BACK INSIDE ZEBEDAH'S TOWER

No!! You fools! I will destroy you all!

Meanwhile out in the caves Naiad hears Zebedah yelling.

We better get out of here, and quick.

How does that gem work? It's supposed to be mega powerful.

Do you think it can get us out of here?

I've got an idea.. Everyone hold on to the gem.

Okay, I wish all the Nandi Bear Tenants would be back in the Nandi Bear Mercantile. Right Now.

When I get my hands on you, you will truly suffer!

It's not working, Naiad!

She's getting closer!

Maybe you have to say some magic words too?

Seriously?

I don't know?

You will soon feel the pain of a thousand root canals!

Try something!!!

Okay! Okay! ummm.. Bring us home, Homey homey abracadabra zig a zig ahh magicy magic time!! Please!

Just as Zebedah's stretchy arm is about to reach them, the whole group fades away!

Well then.

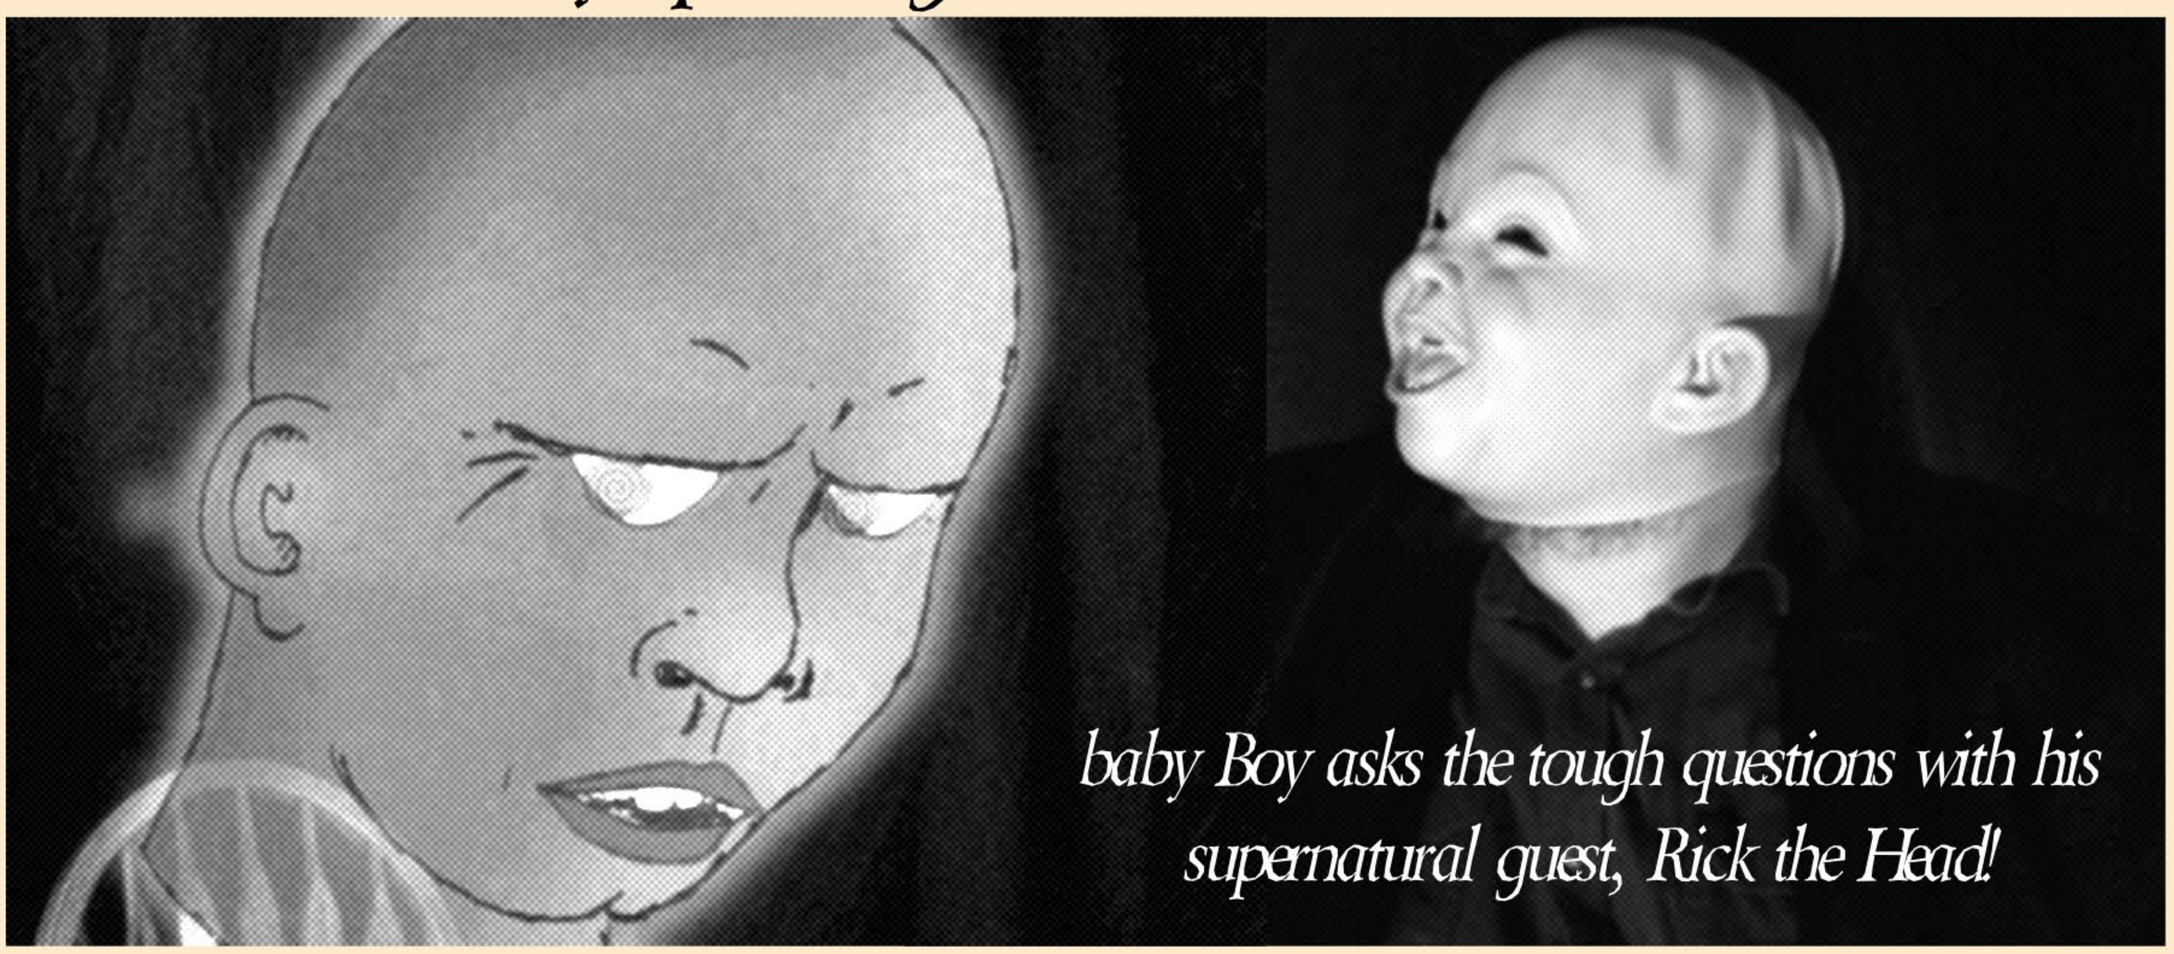
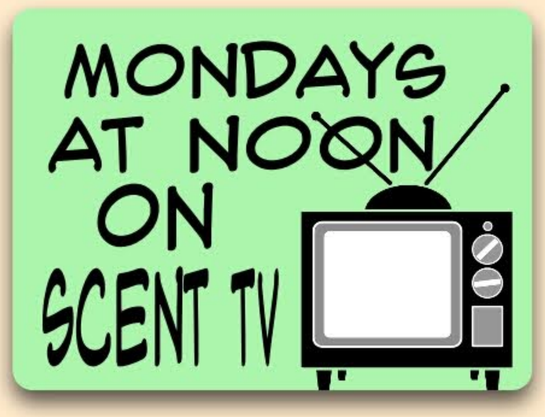
On the next episode of Good Morning with Baby Boy our very special guest will be Rick the Head!



Things really begin to heat up when Rick's long lost wife Stephanie Dupont makes a surprise appearance!



The mercantile is empty except for Rose who is watching the till. But one by one our three groups of heroes (And Villains) appear back in the safety of the mansion..

Hey everybody. I was wondering when you would be back.

How did we get here? I thought the Snid monster was gonna have us for lunch!

I don't know, but we were just trapped on a tiny asteroid out in the middle of space!

It was all me.. I'm actually the greatest.

Looks like we ended up with some of the galaxy's most villainous foes.

Actually Bad Badger here is open to trying out some synthetic blood to stay alive.

I've been thinking guys, I may actually just go all the way and become a vegetarian also.

Really?

NO!! Hahahaha.. Sucker!

Excellent.

But yeah, I'll try out that fake blood thing. It'll save me a load of time.

What should we do with snake head over there?

She's really no threat anymore, now that her snakes are turned to stone. She's just incredibly annoying. But unfortunately that's not a crime.

Not yet.

Speaking of turned to stone, let's bring Oliver back. Naiad, you have the Mega Gem.

Here goes nothing.

Don't forget the magic words!

Oh yeah, I wish that Oliver wouldn't be stone any more. Aaaaa... zoom a zoom zoom and a poom poom.

The words work and the stone soon turns back to flesh and fur...

Woah.. What happened?

You didn't miss anything much. It's good to have you back!

Hang on..

Looks like something did happen to me.

Cool, seems like the Mega Gem gave Oliver some kind of electric super powers!

Neat-o

And from hence forth, I would like to be known as... Baby Mega Boy Electric!

Great name bud.

Hey Rose, Where's Rick the Head?

Oh.. About that.. well, Long story short, I kept winning a series of bets, and well, I own the Nandi Bear Mercantile, And Rick the head, he's outside washing my car.

Sounds good boss.

Raca's communicator watch, Raca speaking, how may I help you?

BEEP BEEP BEEP!!

It's us, Forclune and Pattee! There's an emergency up here on the space station! We need you to send someone quick!

Of course Forclune, anything!

No rest for us today! What's the problem guys?

Well, the truth is, we have completely run out of burritos up here. Can you send up a delivery?

Oh Pattee! Hahahahahah ahaha!!

Meanwhile outside in the parking lot...

Je pense que je pourrais avoir un probl me placer des paris, je n'ai jamais eu la t te viss e droite.

OH BOY!!
